Stain removal machine

[Rarosa Techno Shower System]

Shiminukiyan

[RV-203]

Level up with vaccuming power, 50% Up from previous model
only RV-203 can change the angle of mini table vaccum section
easy change of vaccum section filter
simple yet fanctional new design
Stylish Clear shelf for R solvent set

[Specification]

Power source AC 200V
Power consumption 1kw
Maximum subdue 2,500m/m H2O
Vaccum area dimention 70Φ
Vaccum water level sensor
Invertor
Easy change vanccum section filter
Machine dimention 500×500×740H
R solvent set with clear shelf

Easy Changeable Filter

Changeable Angle

NEW

[RV-302]

Top class model with easy to use and high performance
Suction of large sleeves and small sleeves One button
switching
Equipped with S&A unit that can use steam and air You
can switch between steam and air by operating the
pedal. Large sleeve suction port area with 120φ Small
sleeve suction with 70φ

[specification]

Rated voltage 3-phase/single-phase AC200V
Power consumption 1kw
Maximum static pressure 2500m H2O
Suction dimensions(large) 150X550X900H
Suction dimensions(small) 100X380X950H
Workbench dimensions 1200W X 600D X 950H Weight 50kg
With tank water level sensor and invertor

[RV-101]

Best suit for Wedding dress, Kimono

Wide Table, wide vaccum section and mini table vaccum setion
you will be able change with one button for multiple purposes
vaccume (wide) heights moveable with button
vaccume (wide) 360°Rotation

[Specification]

Power source AC200V
Power consumption 1kw
Maximum subdue 2500m/m H2O
Vaccum area dimention 70
Vaccum water level sensor
Invertor

NEW

Shiminukiyasan [RS-222]

Level up with vaccuming power, 50% Up from previous model
easy change of vaccum section filter
simple yet fanchional new design
Stylish Clear shelf for R solvent set

[Specification]

Power source AC 100V
Power consumption 1kw
Maximum subdue 2000mH2O
Vaccum area dimention 70Φ
Vaccum water level sensor
Easy change vancum section filter
Machine dimention 500×500×800H
R solvent set with clear shelf

Easy Changeable Filter

NEW

[RS-122]

Economy model with easy to use and versatility
Great functionality with wide suction port
Increase productivity with a wide work space!
Easy and convenient with one-button switching between large and small Suction sleeves filter can be easily attached and removed. You can also hang the hair dryer from above.

[Specification]

Rated voltage AC1 OOV 50/60Hz Power consumption 1kw
Maximum static pressure 2000m H2O
Suction dimensions(large)150 x 550 x 900H
Suction dimensions(small) 100 x 380 x 950H
Workbench dimensions 1000WX590DX980H Vacuum tank water level sensor included

NEW

[RS-225]

New idea of compact stain removal machine

Level up with vaccuming power
easy change of vaccum section filter
simple yet fanchional new design
Stylish Clear shelf for R solvent set
Compact size and comes with roller
you'll be able to move around
whenever and wherever you need it

[Specification]

Power source AC100V 50/60Hz
Power consumption 1kw
Maximum subdue 2500m/m H2O
Vaccum area dimention (wide) 285x90 (mini table) 130x70
Vaccum water level sensor

Ultrasound stain removal machine

Optional products

RC-15

14Φ wide at the tips
best for normal stain removal process

- Power source/AC100V 50/60Hz
- Power consumption/ 120W
- Frequency/29KHz
- Ultrasound power consumption/ 30W
- Weight/(gun)0.36kg, (main box)1.2kg

RC-15 TWIN

Able to use 2 different solvent
with switching valve

- Power source/AC100V 50/60Hz
- Power consumption/ 120W
- Frequency/29KHz
- Ultrasound power consumption/ 30W
- Weight/(gun)0.4kg, (main box)1.2kg

RC-30

25Φ wide at the tips
Best suit for wide area stain removal

- Power source/AC100V 50/60Hz
- Power consumption/ 200W
- Frequency/24.5KHz
- Ultrasound power consumption/ 70W
- Weight/(gun)0.37kg, (main box)1.2kg

You'll be able to do stain removal with ultrasound with ejected solvent from the tips
vibration from ultrasound creates high energy power of cavitation
this machine barely makes sound but with high efficient of stain removal skill, yet it won't damage the fabric

Spring Balancer TB-15

Weight
Apx.1.5kg
Length130cm

Spring Balancer TB-10

Weight
Apx.1.5kg
Length 50cm

Flexible Auto Dryer FD-100

AC100V 50/50HZ
Power consumption
1000W
Arm length
Type 25cm
Ltype 40cm
comes with
foot switch

RC Air Gun

Air tube 6Φ
Weight 150g
Plastic air nozzle

Redeign with new pumping system and success of 50% reduction of solvent usage
more eco-friendly and huge reduction of cost

【ECORZA LINE UP】

【ECORZA】

Original Model

【ECORZA JET】

Drying air will comes out
from between nozzle head
cover

【ECORZA TWIN】

Able to use 2 different
solvent with switch button

【ECORZA TWIN JET】

Double feature of
solvent switchable button
and drying air

Solvent Consumption Comparison Graph

ECORZA	45cc/min
Motor drive gun (other company's product)	90cc/min 50% Less
Previous VH-20 type	80cc/min 43% Less

【Specification】

Power source 100V 50/60Hz
Power consumption 20W / 25W
Continuance duration constant
Maximum emission 45cc/min
Size 75D×50W×162H
Weight 850g

Best Sellar Rarosa Cleaning Gun

LSV-20

Connect hose directly with
box can
hose and code is conneted
from below handle

Vulve build in
ceramic pump

VH-20

Connect hose directly with
box can
hose and code is
connected
from above handle

Vulve build in
ceramic pump

BL-20

Use it with the bottle
filled in with solvent

easy to carry around
able to use it any place

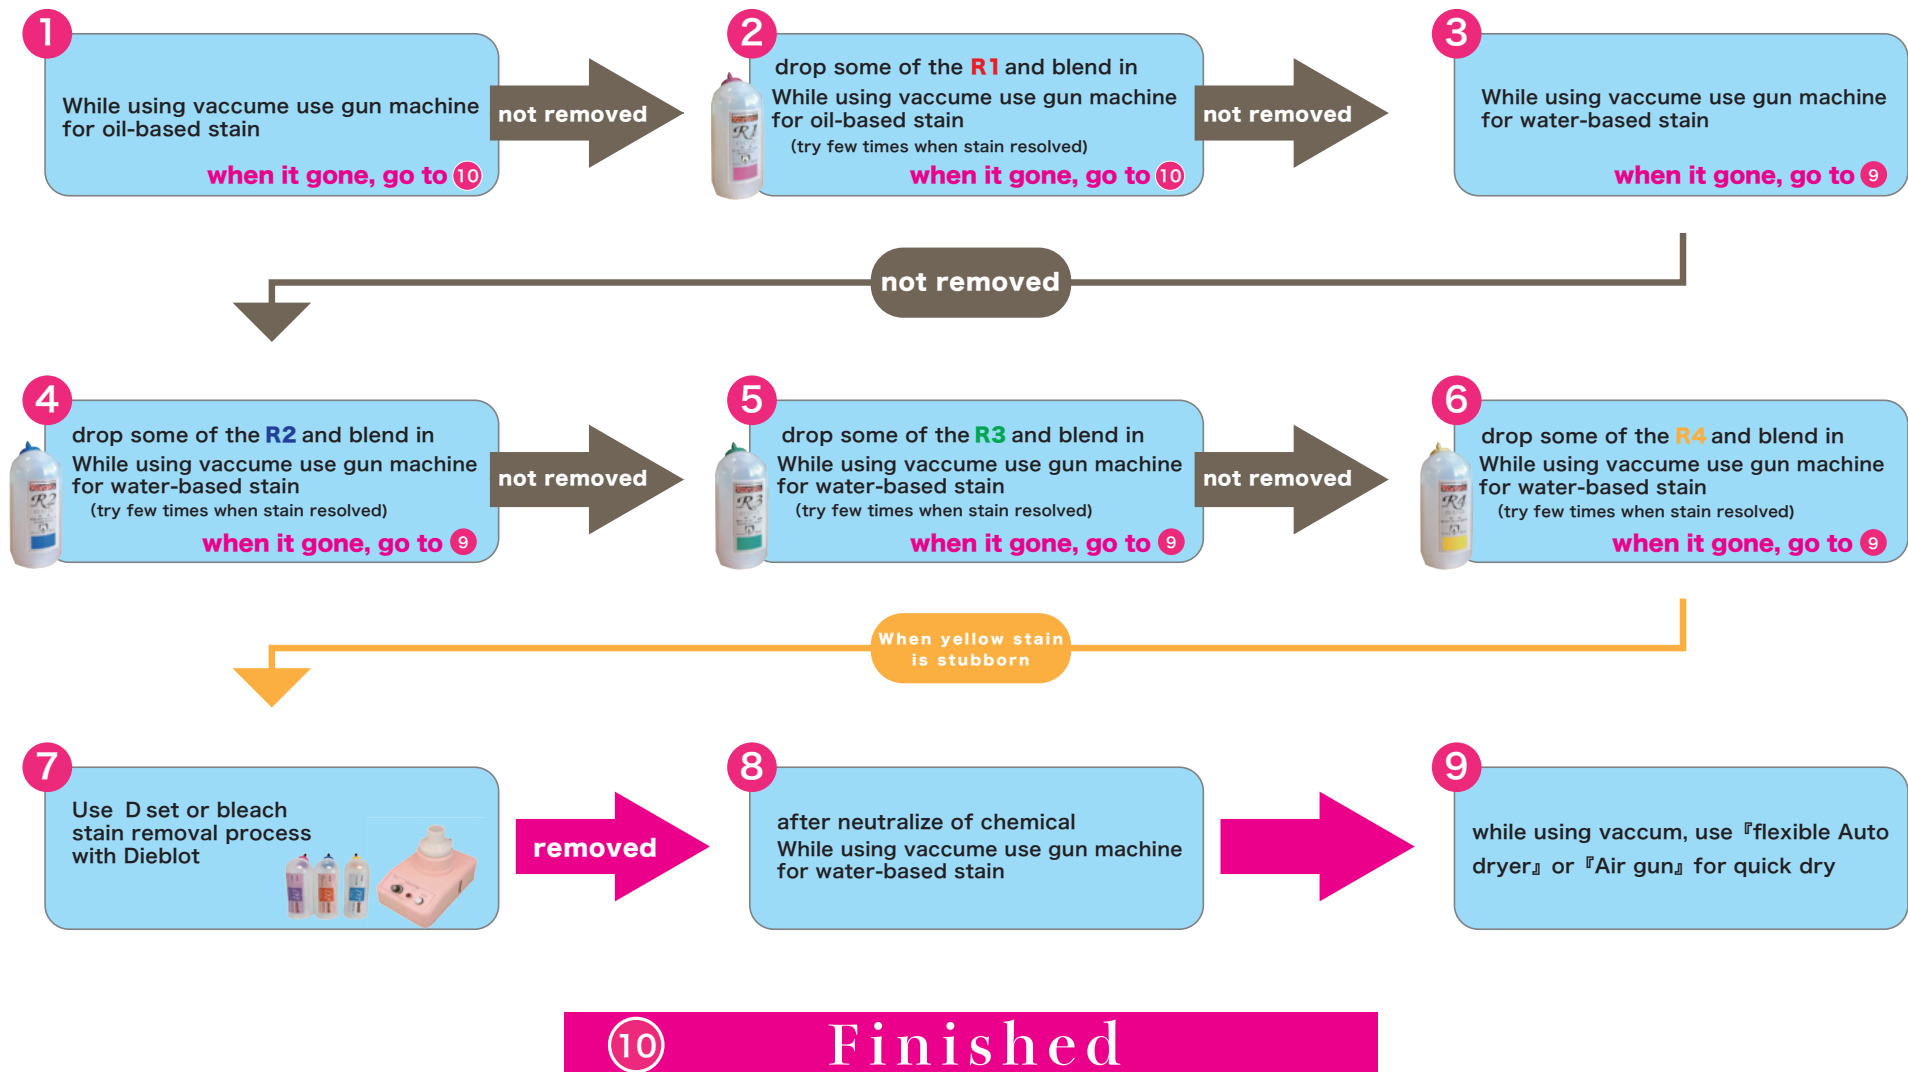

bottle capacity 500cc

【Specification】

power source 100V 50/60Hz
power consumption 25W
continuance duration constant
maximum emission 80cc/min

Stain removal flowchart

Rarosa's 『R series』 Simple & Easy How to Stain Removal

Dieblot・S&Aunit Stain removal solvent

Dieblot

yellow stain removal machine

Using no heat
Ozone steam

[Specification]

Power source 100V/50/60Hz

Power consumption 300W

Size 185×275×75

Weight 1.5kg

100V 20W

Rarosa Rset

Easy to use Original bottle

Rarosa AK-35

Environmental standards cleared
Ecological solvent

Aqura Water

Sterilization and deodorization

Inkcut

dye removal

Looking fresh new without detergent!

No use of detergent and safe for skin. pollution free with this ecological cleaning system

Before

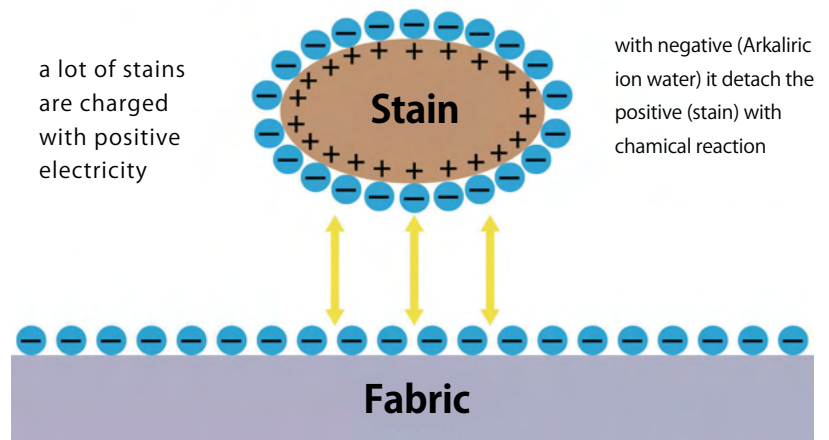

After

Wedding dress's dullness and stains are really hard to clean and bring back colours even with detergent or bleach we developed something new unique which is 「Rarosa Shining Revive」 service the dresses that are white would be brighter, with colour would be more vibrant

【stuffed toy】

fresh and clean
no detergent cleaning
safe for childrens!!

Aqura Wash

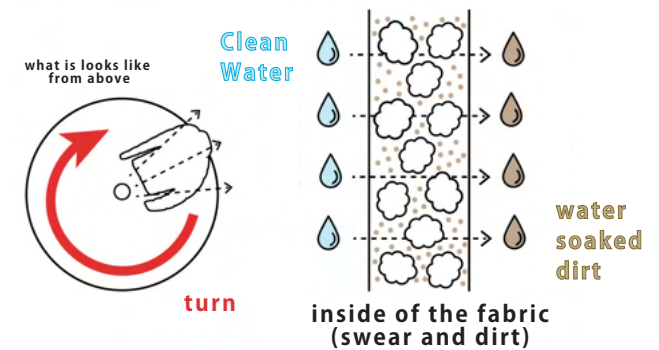

Centrifugal force cleaning machine “Ra•wash” and
Alkaline ionized water “Aqura water”
our original Cleaning System “Aqura wash”

we made it possible to clean clothes with water
that we used to be doing dry cleaning
also huge reduction of water waste
that are best for environment

【Ra•wash】

Tech and how it works

very simple and easy cleaning with out original hung up style
very gentle and it won't damage the fabric
it'll clean the clothes with hung up style on a hunger

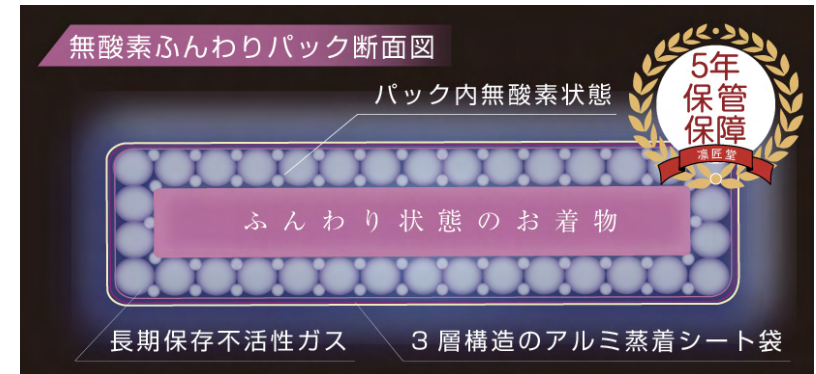

with the force of centrifugal style, clothes are going to be lock in shape
so, it'll not going to make twist or anything during the process of cleaning

No Oxygen Pack Ra-Pack

long term period packing that prevents degrading of product
and comes with 5 years guarantee.

we' ll pack in a special 3 layers alminum film and
make it no oxygen inside it
fully shutting out from bugs,mold,moisture,oxygen

until you use it next time, you can keep it fresh as just washed
5 years guarantee,and if you keep using our service every 5 years
you can keep your stuff almost eternally

Cleaning Factory Rarosa

『Authentic』 Maintenance

whole process of 『hand working』

proud of high quality 『water washed』

as machine maker of stain removal with 30 years history

with our product and technique

we' ll support how to care sensitive bridal outfits

Process with hand, high quality water-washed will support how to maintenance delicate fabric such as bridal outfit

■ Wedding dress

- water washing based, whole process by our hand, we' ll bring back the dullness of colour removing yellow stain, removing odor

■ Tuxedo

- our pressing technique, tuxedo' s original form, we' ll bring back to original look

■ Kimono

- we' ll bring back the original shape and colour by professional technique and technology

Steam brush

- Able to use with hanging up dress and suit etc. perfect for wrinkles, shrinkage!

Fine Cellar

simple use with just hang clothes inside

sanitization and removal of odor can be done within 5 to 10 min

NEW

Fine Cellar

Easy
sanitization
removal of odor
with Ultraviolet Ozone!!

【 features 】

will create pure ozone with special ultraviolet rays from the oxygen within the box.

generated ozone will distribute the organic matter and then, quickly it'll return to oxygen when the box is opened. so, it is safe aspect

【Specification】

- body size 800×800×1800
- weight 45kg
- comes with caster
- build in ultraviolet rays ozone creator
- power source 100V 29W

〈ozone's effect for virus〉

☆novel influenza virus (H1N1)

CTvalue 18 - 99.7% inactivated (Kitasato Uni)

☆novel influenza virus (H5N1)

CT value 60 - 100% inactivated (Ministry of Health,

Labour and Welfare of Japan)

☆coronavirus

CT value 60 - 95.4% inactivated (Fujita Health Uni)

since it's stated, within 5 mins

ozone's concentration will be CT value 60
